

Plated steel body.

Part No	Continuous Rating (Amps)	Length (mm)	Pack Sizes
JLC05	5	40	10 100
JLC25	25	75	10 100
JLC50	50	95	10 200

FULLY INSULATED CROCODILE CLIPS

Galvanised steel body, fully insulated moulded handles and covers.
Takes up to 50mm² cable.
Pack sizes 1, 100.

Part No	Continuous Rating (Amps)	Colour of Moulded Handles	Polarity	Length (mm)
JLC180B	170	Black	-VE	195
JLC180R	170	Red	+VE	195

Galvanised steel body, heavy duty tinned copper braided link spur across the jaws, fully insulated moulded handles and covers.
Takes up to 50mm² cable.
Pack sizes 1, 25, 100.

Part No	Continuous Rating (Amps)	Colour of Moulded Handles	Polarity	Length (mm)
JLC310B	300	Black	-VE	195
JLC310R	300	Red	+VE	195

Cast brass body with angled jaws, fully insulated moulded handles and covers. This clip features a patented cable securing method which eliminates the need to use a copper tube terminal when the cable is secured to the clip.
Takes up to 50mm² cable.
Pack sizes 1.

Part No	Continuous Rating (Amps)	Colour of Moulded Handles	Polarity	Length (mm)
JLC500B	500	Black	-VE	200
JLC500R	500	Red	+VE	200

JUMP LEADS

The award winning range of jump leads (16mm² - 25mm²). Each set is produced using high grade multi strand copper conductors and is sheathed with a flexible PVC. The heavy duty steel crocodile clips are fitted with an extra strong spring and are fully insulated in either black or red.

Individually packed in a heavy duty clip handled poly bag with user safety instructions printed on the reverse.

Part No	Conductor Size (mm ²)	Continuous Rating (Amps)	Peak Rating (Amps)	Length (Metres)
JL606	16	110	300	3
JL608				5

Suitable for petrol vehicles up to 2500cc.
Suitable for diesel vehicles up to 2000cc.

Part No	Conductor Size (mm ²)	Continuous Rating (Amps)	Peak Rating (Amps)	Length (Metres)
JL611	20	135	350	3
JL613				5

Suitable for petrol vehicles up to 3500cc.
Suitable for diesel vehicles up to 2500cc.

Suitable for petrol vehicles up to 5000cc.
Suitable for diesel vehicles up to 3500cc.

Heavy duty jump leads (35mm² - 50mm²). Each set is produced using high grade multi strand copper conductors and is sheathed with flexible PVC. The heavy duty steel crocodile clips are fitted with an extra strong spring and are fully insulated in either black or red. All sets are fitted with heavy duty tinned braided copper links to withstand higher amperages. Individually packed in a heavy duty clip handled polythene bag with user safety instructions printed on the reverse.

Photograph shows the heavy duty tinned copper braided link fitted to the crocodile clip.

Part No	Conductor Size (mm ²)	Continuous Rating (Amps)	Peak Rating (Amps)	Length (Metres)
JL624	35	240	600	3
JL623				5

New

Suitable for petrol or diesel vehicles up to 7000cc.

Part No	Conductor Size (mm ²)	Continuous Rating (Amps)	Peak Rating (Amps)	Length (Metres)
JL627	50	345	900	3
JL626				5

New

Suitable for petrol or diesel vehicles over 7000cc.

Note: All the recommended engine sizes for each jump lead are only intended as a guide. If in doubt always consult a qualified auto electrician prior to using any of these products.
